

Established in 1920, A Hills and Sons are wholesale growers of Hardy Nursery Stock.

The Stokesley nursery in the North East of England produces large quantities of Trees, Shrubs, Conifers and Hedging in many varieties and sizes.

Our Young Enterprise Company run by year 10 students at Stokesley School is working alongside A Hills and Sons of Stokesley.

“Simon Hill is our Business Advisor, he attends Company Meetings and allows us to visit the Nursery where he has allocated a poly-tunnel for the company to use. He is available to advise us and contacts other suppliers, so that we can offer the best value plants to our customers.”

“Hills on Wheels have taken cuttings and potted on our own strawberry plants, transferred them to the poly-tunnel and we will be selling the plants later in the summer term. Mr Hill has sourced some pansy plug plants for us to pot-on and then sell for summer bedding. “

“Everyone involved in the company is committed to making it a success, hopefully making lots of profit, to be divided up amongst our shareholders. If you would like to support us, and take a share in our success—you can buy a share in our company by contacting any of our members.”
