& Sixth Form College

Being the best we can be

Child Development

How can you help your child in Child Development?

There are 3 parts to the assessment.

RO18 Exam: Health & well being for child development.

RO19 Coursework: Understand the equipment and nutritional needs of children from birth to five years.

RO20 Coursework: Understand the development of a child from birth to five years.

The students will need to study a child (0-5) for 4 months - please help them find such a child.

Help your child to meet deadlines and use the sample/ exemplar materials. Make sure they avoid plagiarism if working at home. Look at the subject site for help or the click here for the [OCR Guide to Plagiarism](#)

Use the Child Development Subject Site Click here for → [Subject Site](#)

This is where students can access information on coursework and lots of resources linked to this and the exam. It is found via the school site on Realsmart (the students use it regularly and know where to find it).

There are past exam papers and mark schemes there too.

Revision guides, workbook and timetable

- Purchase from school on Parentpay
- Encourage students to highlight key points and then make brief notes on these to then make flash cards/mind maps with. Consolidate with workbook questions.
- Encourage students to plan their revision topic by topic and stick to it!

Flash cards/mind maps

- These should be easy to read summaries of content taking no more than an hour to make a whole set of cards/mind map on a topic. Many students have started doing this at the end of a topic. It's never too early to prepare for the exam in January.

Other sources of information

- Go to OCR website - Cambridge Nationals - Child Development [OCR site](#) or visit the subject website [Subject Site](#) Most of the key points are on the subject site but the specification [Specification](#) can be used as an overview of what is needed. Students also have lots of information in their Google classrooms especially from lockdown.

Support in school beyond lessons

Catch-up clinics are held in 220i - by arrangement this year as Covid rules apply.

Lunchtime access - by appointment only this year.

Physical Education

How can you help your child in GCSE PE?

Specification and specimen papers

- Go to Pearson Edexcel website and browse course materials.
<https://qualifications.pearson.com/en/qualifications/edexcel-gcses/physical-education-2016.coursematerials.html#filterQuery=category:Pearson-UK:Category%2FSpecification-and-sample-assessment>
- Specification can be used as an overview of what is needed
- Attempt questions from specimen papers
- Support your child by marking it with them, the answers should match the mark scheme

Revision guides, edexcel endorsed.

- Purchase from school on Parentpay
- Encourage pupils to highlight key points and then make brief notes on these to then make flash cards/mind maps with. Consolidate with workbook questions.
- Encourage pupils to plan their revision topic by topic and stick to it!

Flash cards/mind maps

- These should be easy to read summaries of content taking no more than an hour to make a whole set of cards/mind map on a topic

Practical Element Evidence

- Students are required to provide lots of video evidence of them performing in competitive situations for their chosen sports. It would be extremely beneficial to have recorded some of your child's performances/matches when you go to watch them at their events.
- A good quality recording that has been allowed to run for enough time for the moderator to make his/her decision. Small clips will not suffice.
- Please don't worry too much about the traditional team sports such as rugby/football/hockey/netball as these can be set up in school. However, students who are cricketers should definitely provide evidence of matches e.g. when in bat, during their overs in the field etc.
