STOKESLEY SCHOOL CHROMEBOOK PROGRAMME

Stokesley School embarked on its first Chromebook 1:1 Programme with its Year 7 students in September 2017 and continued with last year's intake. The overwhelming support and take up meant that around 95% of students across Year's 7 8 and 9 have access to their own device, with the rest able to loan one for use in school only.

Our vision is that every student at Stokesley School will have their own Chromebook enabling a vital link between learning at school and at home. The Chromebooks enable students to access the independent tasks they must complete as part of our digital curriculum designed to increase student agency in learning by ensuring they take more ownership of and responsibility for their own learning.

The next part of our implementation plan is with the incoming Y7 students from September 2021. We are also making this available to students in the other year groups. **(Please select the year that you child will be in from September 2021)**. Students are encouraged to use their Chromebooks in class and at home. We hope that you share our vision to make this project a success.

THE EQUIPMENT ON OFFER

We have selected a Chromebook which is best suited to enhance the learning experience of our students at Stokesley School. This Chromebook is specifically designed for student use with a ruggedised outer casing and enhanced specification to ensure that they withstand all functional requirements.

Each device is also supplied with a 3 Year extended warranty and 3 Year protection policy for accidental damage and theft with £0 excess giving complete peace of mind.

WHY CHROMEBOOKS?

Chromebooks are extremely easy to use and facilitate both independent study and online collaboration whilst also offering high levels of security and eSafety. Through the use of Google Apps for Education, we can further improve student engagement, and open the door to learning.

The Chromebooks with the Management Console ensure that all students are able to access all of the same resources and applications, wherever they are in the world and enable teachers to deliver the curriculum in the most exciting and engaging way.
