

Stokesley School and Sixth Form Alumni

Name:

Laura Simpson

Attended Stokesley School & Sixth Form from:

2005 - 2012

Went on to:

University of Liverpool - BSc in Diagnostic Radiography

Newcastle University - Masters in Physician Associate studies

Current role/s:

Physician Associate working across General Practice and Paediatrics

The best part of my job is:

I love the teamwork and support that comes with the job and the flexibility to move to different areas of medicine in the future if I wanted to. Being a Physician Associate allows me a good work life balance and, as it's such a new profession within the NHS, the opportunities for progression are brilliant.

Advice to current Stokesley students:

Try to find balance between school work and hobbies. A well rounded life is a happy life!
