### **GCSE Mathematics Revision Materials**

Dear Parents/Carers,

Now that Year 10 have completed nearly a third of their GCSE course, it becomes an appropriate time for them to start thinking about the resources they are using to prepare themselves for future assessments. High quality preparation and utilising the right resources is key to success in GCSE Mathematics. In addition to the notes students make in class in their books, our Digital Curriculum Maths Site (accessed via the Student Dashboard) and the support already available on HegartyMaths, students may like some of the revision resources listed overleaf.

If you would like to purchase any of the revision materials listed overleaf for your child, please send them to the Maths Office with cash and the required resources will be issued to them.

If you wish to purchase any revision resources for your child trip but need financial support please contact me directly and I will be able to advise you of how we might be able to help.

If you have any questions regarding the GCSE revision materials available then please do not hesitate to contact me via [m.alcock@stokesleyschool.org](mailto:m.alcock@stokesleyschool.org)

Thank you for your support.

Yours faithfully,

Mr M Alcock  
Head of Mathematics Faculty

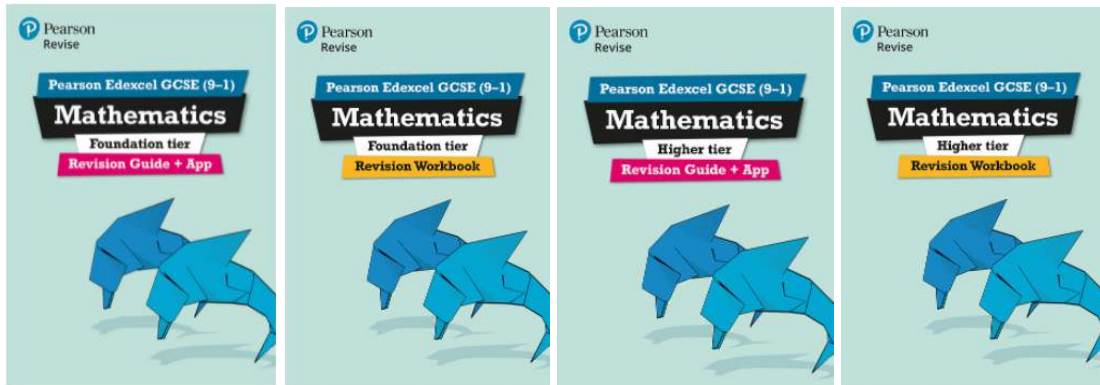

### **GCSE Revision Guide, App and Workbook**

**£5.50 for the pair (Higher tier or Foundation tier)**

Traditional style revision guide (with app) and workbook. These books have been written by Edexcel examiners and are therefore tailored to the style of the exam.

### **Snapshot Booklets**

**£5 (Higher tier or Foundation tier)**

Revision cards in a small booklet form, aimed to summarise every topic into revision notes onto a single card. The cards are also fully interactive and can be scanned using a mobile phone to load a supporting short video and exam style questions with answers.
