

12th September 2023

Dear Parent/Carer

Year 11 Science, English, Humanities, Computer Science and French

For the last eight years, Year 11 students have used an online learning platform called Tassomai as a tool for their revision for science. We saw significant impact in improving students' core knowledge and enabled them to organise their revision effectively. Due to the success of this offer in science, last year, we added English to the package. Student feedback has been equally as positive about this development. Tassomai has been designed to help students reinforce their knowledge of key content in the "combined" and "triple" science courses as well as helping to consolidate English language and literature information. This year, we have also been able to secure geography, history, computer science and French content for our students.

The name 'Tassomai' comes from the Greek language, meaning 'self-organised', with the system acting as an online tutor; helping them to consolidate their understanding of each topic. Tassomai organises students' independent revision and supports them in learning the facts they need for the exam. It analyses performance and tailors its revision programme to the individual so they can fill any gaps in their knowledge and practise for the examination papers.

We have used this programme for science for the past eight years; it has been very well received by most students and we are confident that this programme has helped us to achieve our outstanding results in both science and English this year.

The cost of access to Tassomai for the whole year can be seen below:

Subject	Cost per pupil (one off payment)
Science and English core subscription	£13.50
Geography add-on	£3.83
History add-on	£4.69
Computer Science	Included
French	Included

As can be seen above, the maximum any student would pay is £22.02 if they study both Geography and History, which is a much reduced cost than if purchased privately (£44.99 per month). Please note: the core subscription of £13.50 must be purchased in order for the Geography and History add-ons to be valid.

**Stokesley School
& Sixth Form College**

Being the best we can be

Headteacher: Mr M Fenwick

The subscription can be paid for using Parent Pay before 27th October, the end of the half term.

Once payment is received, your child will receive instructions on how to log in using their school email address. We shall be giving tuition to students to show them how to get the best out of using this resource which will be repeated for parents at a later date. If you would like to have access to Tassomai but there is an issue of financial hardship, please let us know at finance@stk.areté.uk

Yours faithfully

Mrs A Telford
