Being the best we can be

## ICT

### How can you help your child in ICT?

#### Revision workbook and timetable

- Purchased last year from Mrs Metcalfe.
- Encourage pupils to highlight key points and then make brief notes on these and then to make flash cards/mind maps/post it notes. Consolidate with questions in the revision workbook.
- Encourage pupils to plan their revision topic by topic and stick to it!

#### Flash cards/mind maps

- These should be easy to read summaries of content taking no more than an hour to make a whole set of cards/mind map on a topic.

#### Specification and past papers

- Go to the OCR website and select the correct specification (IT – J808).
- Specification can be used as an overview of what is needed.
- Attempt questions from past papers.
- Practice extended writing questions.
- Support your child by marking it with them, the answers should match the mark scheme.
- Go through the paper sat last year with the mark scheme (Mrs Metcalfe has them).

#### Controlled Assessment Skills

- Practice skills at home for the controlled assessment in January. In particular spreadsheet and database skills.
- Read through what is required for the project life cycle and remember what you have done for the practice one.
- Revise the list for the tasks you need to complete (will be given to you in December by Mrs Metcalfe).

#### Support in school

- Lunchtime revision sessions will be put on for resits in the New Year.
