

3rd October 2024

Dear Parents / Carers

On Friday 18th October Year 12 students will be engaging with an independent programme of study, relating to work experience and Unifrog. As a school, we wish to ensure that all students have access to careers guidance and support, therefore a bespoke programme of activities has been created for our Year 12 students. This follows on from the Stepping into KS5 event, earlier in the year.

Information relating to the day will be shared directly with your child, but shall include the following:

- Virtual Assembly
- Personality and Interest Profile
- Work Experience Research
- Generation of CVs
- Exploration of MOOCs (Massive Open Online Courses)

Students will not be required to be in school in order to complete these activities. However, should your child wish to attend school on Friday, they will be able to access the OLC within the Sixth Form Centre.

If you have any further questions please do not hesitate to contact either myself (creed@stokesley-alt.uk) or Mrs Jeal (jjjeal@stokesley-alt.uk).

Kind Regards,

Dr C. Reed

Assistant Headteacher: Curriculum and KS5
